

# YAMPA RIVER BASIN PARTNERSHIP

"Balancing natural resource and social issues through communication, education, and coordination."

## 2005 Work Plan

---

Yampa River Basin Partnership Executive Steering Committee and general membership commit their participation and resources in 2005 to:

- Coordinate development and implementation of the Yampa River Endangered Fish Recovery and Water Management Plan working with Fish and Wildlife Service
- Facilitate implementation of and monitor Division of Wildlife DOW Aquatic Wildlife Management Plan
- Monitor the process of Elkhead Reservoir Expansion Project (working with Colo. River Water Conservation District)
- Participate in water use and water management discussions on a regional and statewide basis (including Statewide Water Supply Initiative)
- Monitor Routt / Moffat 208 Plan 'Yampa Basin Watershed Plan'
- Monitor Chronic Wasting Disease issue in our region

YRBP will encourage public participation in 2005 Work Plan.

---

**The following topics and others may be requested as updates to YRBP membership:**
